"West's touch is light, nimble, and beautifully fluid, without a hard edge in sight, and whether he's writing songs or instrumentals, the ideas are first-rate, combining the concision of old-time with the far-ranging improvisation of newgrass."

- Acoustic Guitar Magazine

"West paints a musical portrait that is steeped in history and tradition but at the same time is also refreshingly modern."

- Rolling Stone

"Long appreciated from his collaborations with Cahalen Morrison, he finds a perfect nexus between old-time, bluegrass, and country, with only the sweetest tones and melodies folded into original songs."
